(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(3) Steady red alone, or "Stop":

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. Provided, however, that generally a right turn on a red signal shall be permitted at all intersections within the city, provided that the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right of way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn shall not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the city at intersections which the city decides require no right turns on red in the interest of traffic safety.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(4) Steady red with green arrow:

(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(5) In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (1976 Code, § 9-407, modified)

15-508. At flashing traffic control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected in the city it shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in section 15-504 of this code. (1976 Code, § 9-408)

15-509. At pedestrian control signals. Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" have been placed or erected by the city, such signals shall apply as follows:

(1) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(2) Wait or Don't Walk. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to the nearest sidewalk or safety zone while the wait signal is showing. (1976 Code, § 9-409)

15-510. Stops to be signaled. No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or otherwise, without first signaling his intention in accordance with the requirements of the state law,<sup>1</sup> except in an emergency. (1976 Code, § 9-410)

Except as hereinafter provided, every vehicle parked upon a street within this city shall be so parked that its right wheels are approximately parallel to and within eighteen (18) inches of the right edge or curb of the street. On one-way streets where the city has not placed signs prohibiting the same, vehicles may be permitted to park on the left side of the street, and in such cases the left wheels shall be required to be within eighteen (18) inches of the left edge or curb of the street.

Notwithstanding anything else in this code to the contrary, no person shall park or leave a vehicle parked on any public street or alley within the fire limits between the hours of 1:00 A.M. and 5:00 A.M. or on any other public street or alley for more than seventy-two (72) consecutive hours without the prior approval of the chief of police.

Furthermore, no person shall wash, grease, or work on any vehicle, except to make repairs necessitated by an emergency, while such vehicle is parked on a public street. (1976 Code, § 9-501)

15-602. Angle parking. On those streets which have been signed or marked by the city for angle parking, no person shall park or stand a vehicle other than at the angle indicated by such signs or markings. No person shall

15-603. Occupancy of more than one space. No person shall park a vehicle in any designated parking space so that any part of such vehicle occupies more than one such space or protrudes beyond the official markings on the street or curb designating such space unless the vehicle is too large to be parked within a single designated space. (1976 Code, § 9-503)

15-604. Where prohibited. No person shall park a vehicle in violation of any sign placed or erected by the state or city, nor:

A vehicle parking in such a space shall display a certificate of identification or a disabled veteran's license plate issued under Tennessee Code Annotated, title 55, chapter 21. (1976 Code, § 9-504, modified)

15-605. Loading and unloading zones. No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the city as a loading and unloading zone. (1976 Code, § 9-505)

15-606. Regulation by parking meters. In the absence of an official sign to the contrary which has been installed by the city, between the hours of 8:00 A.M. and 6:00 P.M., on all days except Sundays and holidays declared by the governing body, parking shall be regulated by parking meters where the same have been installed by the city. The presumption shall be that all installed parking meters were lawfully installed by the city. (1976 Code, § 9-506)

15-607. Lawful parking in parking meter spaces. Any parking space regulated by a parking meter may be lawfully occupied by a vehicle only after a proper coin has been deposited in the parking meter and the said meter has been activated or placed in operation in accordance with the instructions printed thereon. (1976 Code, § 9-507)

15-608. Unlawful parking in parking meter spaces. It shall be unlawful for the owner or operator of any vehicle to park or allow his vehicle to be parked in a parking space regulated by a parking meter for more than the maximum period of time which can be purchased at one time. Insertion of additional coin or coins in the meter to purchase additional time is unlawful.

No owner or operator of any vehicle shall park or allow his vehicle to be parked in such a space when the parking meter therefor indicates no parking time allowed, whether such indication is the result of a failure to deposit a coin or to operate the lever or other actuating device on the meter, or the result of the automatic operation of the meter following the expiration of the lawful parking time subsequent to depositing a coin therein at the time the vehicle was parked. (1976 Code, § 9-508)

15-609. Unlawful to occupy more than one parking meter space. It shall be unlawful for the owner or operator of any vehicle to park or allow his vehicle to be parked across any line or marking designating a parking meter space or otherwise so that such vehicle is not entirely within the designated parking meter space; provided, however, that vehicles which are too large to park within one space may be permitted to occupy two adjoining spaces provided proper coins are placed in both meters. (1976 Code, § 9-509)

15-610. Unlawful to deface or tamper with meters. It shall be unlawful for any unauthorized person to open, deface, tamper with, willfully break, destroy, or impair the usefulness of any parking meter. (1976 Code, § 9-510)

15-613. Presumption with respect to illegal parking. When any unoccupied vehicle is found parked in violation of any provision of this chapter there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking. (1976 Code, § 9-513)

15-614. Unlawful parking of trucks in residential areas. Except when necessary to make a pickup or delivery, it shall be unlawful for the owner or operator of any truck over a one ton load capacity to park or allow his vehicle to be parked on the following streets: Highland, Mason Lane, Carding Machine, Lake View Drive, Harper, Pine Top, Blair, Cedar, Church, Ferry, Commerce, River Bend Rd., Collins, Pathkiller, Coffee, Circle, Lakeview Heights, Vale, Summer, Huffland, Rosedale, Pecan, Park, Walnut, West, Atlanta, College Wharf, Shubert, McCollister, Ingram, Webster, Fort Hill McQueen, Kingston, Overlook Drive, Georgia Street, Gail Street, Terrace Drive and Oak Street. Any impounded vehicle shall be stored until the owner or other person entitled thereto claims it, gives satisfactory evidence of ownership or right to possession, and pays all applicable fees and costs, or until it is otherwise lawfully disposed of. The fee for impounding a vehicle shall be five dollars (\$5.00) and the storage cost shall be one dollar (\$1.00) for each twenty-four (24) hour period or fraction thereof that the vehicle is stored.
