SECTION
11-301. Disturbing the peace.
11-302. Anti-noise regulations.

11-301. **Disturbing the peace.** No person shall disturb, tend to disturb, or aid in disturbing the peace of others by violent, tumultuous, offensive, or obstreperous conduct, and no person shall knowingly permit such conduct upon any premises owned or possessed by him or under his control. (1986 Code, § 10-202)

11-302. **Anti-noise regulations.** It is unlawful to create, emit or cause to be emitted any excessive, loud and disturbing noise. The following shall be prima facie evidence of excessive, loud and disturbing noise:

1. The use of any musical instrument, radio set, television set, phonograph, victrola or other instrument, machine or device for amplifying, producing or reproducing sound, in such manner as to disturb the peace and comfort of the neighboring inhabitants or at any time with louder volume than is necessary for convenient hearing of the persons who are in the room, chamber or in the vicinity in which such instrument, machine or device is operated and who are voluntary listeners thereto. The operation of any such instrument, machine or device between the hours of 9:00 P.M. and 7:00 A.M. in such a manner as to be plainly audible at a distance of fifty (50) feet or more from the building or structure in which it is located shall be prima facie a violation of this section.

2. Any noise created for the entertainment, enjoyment or benefit of the creator or their guests shall be presumed to be excessive, loud and disturbing if any of the following apply:
   (a) The noise is clearly audible for a distance of 50 feet or more from the property line from which the noise emanates, or
   (b) The noise is clearly audible by a passenger of a motor vehicle, other than a vehicle from which the noise may come, on a public street or thoroughfare with the doors and windows of the vehicle closed; or
   (c) The noise occurs between the hours of 9:00 P.M. and 7:00 A.M. and can be heard more than thirty (30) feet beyond the property line from which the noise emanates; or
   (d) In the event noise measuring devices or equipment are available, or become available, to measure the noise as against the
ambient background noise, and the noise exceeds the ambient background noise by 15 decibels at any time between 9:00 P.M. and 7:00 A.M. or the noise is 25 decibels louder than the ambient background noise at any hour without regard to cause. Measurements of noise and ambient background noise shall be made at the property line unless other persons using the same property are complaining about the noise in which case the measurement shall be from the source of the noise. The use of measuring devices may be used as a supplement to other evidence or as evidence of a violation but is not required for the establishment of a violation. This section is not intended to be exclusive of any other section or provision of this chapter and use of a measuring device or equipment, when used, may be supplemental and does not preclude establishing a violation of other sections or through other evidence.

(3) Noise created in vehicles, including a radio, tape or disk player, or by a device or devices on the vehicle or from the vehicle, other than vehicle horns, if the noise is audible at a distance of twenty-five (25) feet or more from the vehicle.

(4) Racing or revving the engine of any motor, engine, automobile, motorcycle, machine or mechanical device unless enclosed within a sound insulated structure so as to prevent noise and sound from being plainly audible within ten feet (10') of any residence in a residential zone.

(5) The sustained operation or use between the hours of 9:00 P.M. and 7:00 A.M. of any electric or gasoline powered motor or engine or the repair, modification, reconstruction, testing or operation of any automobile, motorcycle, machine or mechanical device or other contrivance or facility unless such motor, engine, automobile, motorcycle, machine or mechanical device is enclosed within a sound insulated structure so as to prevent noise and sound from being plainly audible at a distance of fifty feet (50') from such structure, or within ten feet (10') of any residence.

(6) Vehicle horn blown when the vehicle or operator is not in immediate danger or when not used to warn or signal immediate and/or eminent danger.

(7) Noise made to attract attention to an event or sale which is audible 50 feet or more from the source or which exceeds the ambient background noise by 15 decibels.

(8) Persistent barking of a dog or other animal sounds which are audible 50 feet or more from the source or which exceeds the ambient background noise by 15 decibels. Dog barking or any other animal sounds which are 15 decibels louder than the ambient background noise shall be presumed to be unreasonable and disturbing if it is created between 9:00 P.M. and 7:00 A.M.

(9) Exterior construction using hammers, power tools or motor driven equipment between the hours of 9:00 P.M. and 7:00 A.M.
(10) Lawnmowers, bush clearing equipment, blowers, and other equipment used for cleaning or maintenance shall be exempted from this section if the equipment meets the following provisions:

(a) The equipment is being operated and used for the purpose for which it was intended.

(b) The equipment is being operated with the use of all sound dampening devices which meet or exceed original equipment.

(c) The equipment is being used between the hours of 7:00 A.M. and 9:00 P.M.

(d) The equipment is used for the limited time required to accomplish the particular work or job activity.
